Kim

Is there one or two packages that contains the high level 2007 LRP assumptions C2= margins, refining, etc.? Can you direct me to it? I suspect the LRP BOD presentation may have it, yes. In the Strategy Presentation, we presented the results without too much explanation. Sometime Monday morning would be great.

Jesus

You may have the same summary in some bank document . . . if so, can you get it to me?

Thanks

Bob
